

Downloading student identifiers from Learn

Student identifiers can be extracted from the module page on Learn as a csv file. Following the steps below, you can download this file, the file name starts with 'courseid'. Within INDAF, load this file using the button 'Load Learn course ID csv file'.

The screenshot shows the 'Participants' section of a module page. A red arrow labeled '1' points to the 'Participants' link in the sidebar. A red arrow labeled '2' points to the 'Roles' dropdown menu. A red arrow labeled '3' points to the 'Student' option in the dropdown list. A red arrow labeled '4' points to the 'Apply filters' button. The sidebar also includes links for 'Module home', 'Module specification', 'Past exam papers', 'Settings', and 'Activity results'.

Then scroll to the bottom to select all students and select 'Comma separated values (.csv)':

The screenshot shows the participant selection interface. A red arrow labeled '5' points to the 'Select all 328 users' button. A red arrow labeled '6' points to the 'Choose...' button. A red arrow labeled '7' points to the 'Comma separated values (.csv)' option in the download menu. The download menu also includes options for 'Choose...', 'Add a new note', 'Microsoft Excel (.xlsx)', 'HTML table', 'Javascript Object Notation (.json)', 'OpenDocument (.ods)', 'Portable Document Format (.pdf)', 'Manual enrolments', and 'Edit selected user enrolments'.
